DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-12, 26, and 27, drawn to a method for attaching foil.

Group II, claim(s) 13-25, drawn to a device for attaching foil.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The special technical features of attaching a foil sheet by using hot melting adhesive with the application device guided together with the supply of foil is known as shown for example by Walt et al (WO 01/02700). Walt et al discloses a device, which applying a sealing film on walls of structures using hot melt adhesive and applying the hot melt adhesive with a device (6,7), which is guided together with the film. Therefore, the special technical features do not make a contribution over the prior art and lack unity of invention, which required a restriction requirement.

3. A telephone call was made to Julian H. Cohen on July 28, 2008 to request an oral election to the above restriction requirement, but did not result in an election being made. Mr. Just Tye has tried to contact the examiner, which the examiner has also tried to contact Mr. Tye to discuss the case but the examiner was unable to reach the Mr. Tye to further the discussion of the election and therefore, the examiner is sending the written request.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to SING P. CHAN whose telephone number is (571)272-1225. The examiner can normally be reached on Monday-Thursday 7:30AM-11:00AM and 12:00PM-4:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Philip C. Tucker can be reached on 571-272-1095. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
